I called a guy with an ad about a CR250 engine. It turned out that he had the CR250 engine and was after a first generation frame. We got to chatting. Low and behold, we had both come across a 1998 CR250 that was for sale. We met up and paid 50/50 on the '98. I got the engine and he got the rest. I was happy as long as the engine ran.

Although the case reed engine has potentially the best design, it was never developed to its full potential by Honda, as the industry attention rapidly turned to four stroke engine development. Many owners of the final generation of the CR250 felt the need to turn to the aftermarket to bring that engine to its full potential.

Got a 2000 cr250 with a bad engine. Got a used Engine 1998-1999? and put it in the bike. The original Stator, CDI and coil worked on the used engine. But it was from a 1998-1999 bike and the CDI would not fit on the 2000 bike. (frame is different) for 2000 on. I put the 2000 stator CDI coil on from my busted engine and they did not work.
