A bus lane or bus-only lane is a lane restricted to buses, often on certain days and times, and generally used to speed up public transport that would be otherwise held up by traffic congestion. Bus lanes are a key component of a high-quality bus rapid transit (BRT) network, improving bus travel speeds and reliability by reducing delay caused by other traffic.

Bus lane - Wikipedia

Step 2 I'm going to use an existing Azure Service Bus namespace which is used for creating a Queue, please refer to the last article where I have explained how to create an Azure Service Bus and it' namespace.. Step 3 Once the Azure Service Bus has been created successfully, now, we can start to create a topic for the service bus.
