programming language (Java) and a standardized database language (Structured Query Language, or SQL).

[Download] Database Programming with JDBC and Java PDF ...

JDBC is a database access protocol that enables you to connect to a database and run SQL statements and queries to the database. The core Java class libraries provide the following JDBC APIs: `java.sql` and `javax.sql`. However, JDBC is designed to enable vendors to supply drivers that offer the necessary specialization for a particular database.
