Within the first three days of the clerkship, make a study plan that will allow you to get through all of the core content by one week before the exam. Use that last week for review and larger numbers of practice questions. Plan for the majority of the clerkship to be MOSTLY focused on core reading and the last week to MOSTLY focus on questions.

What is an incarcerated hernia? - Medscape

Graduates from schools outside of the US are ineligible for residency training in New York State if more than 12 weeks of clerkship training (during the 3rd and 4th years of medical school) occurred outside of the country in which the medical school is located unless the New York State Education Department has approved that school's curriculum ...

Family Medicine - Albany Medical College

The largest difference is the kind of experience. A "clerkship" is what 3rd and 4th year US medical students do. You are a part of the team, and can participate in direct clinical care of patients. You typically would write notes, give presentations on rounds, and otherwise be a part of a care team. An "observership" is strictly shadowing.
