IESNA Lighting Design Guide Interior-1

In lighting design, the lumen method, (also called zonal cavity method), is a simplified method to calculate the light level in a room. The method is a series of calculations that uses horizontal illuminance criteria to establish a uniform luminaire layout in a space. In its simplest form, the lumen method is merely the total number of lumens available in a room divided by the area of the room.

Lumen method - Wikipedia

IES RR, 3rd Edition, 2004 - IESNA Lighting Ready Reference Preface: This fourth edition of the IESNA Lighting Ready Reference is a compendium of the most often used materials from the IESNA Lighting Handbook, 9th Edition, published in 2000. It is not intended that this volume replace the Handbook or other IESNA publications, which provide more in-depth treatment on specific technical and ...
