Minolta Dimage 5 User Guide

The company resumed camera production shortly after the war with the Semi Minolta III. This camera was equipped with a Rokkor 75/3.5 that was the first Japanese coated lens commercially available, and also the first lens made by the company for civilian use. The company also absorbed the optical section of the Toyokawa Navy Arsenal (Aichi prefecture), which became the Toyokawa (工場) plant in ...

A digital camera is a camera that captures photographs in digital memory. Most cameras produced today are digital, largely replacing those that capture images on photographic film. While there are still dedicated digital cameras, many more cameras are now incorporated into mobile devices like smartphones, which can, among many other purposes, use their cameras to initiate live video-telephony ...
